BIG BLUE – 10" AND 20" FILTER HOUSINGS

pozzani

Experts in water treatment products

HOUSINGS

Big Blue filters are cartridge based filters designed for industrial applications and higher flow rates. These robust housings are available in 2 sizes, the small one taking standard 10" cartridges and the larger one taking 20" cartridges.

Connection ports for both housings are available with 1" or 1½" BSP threads.

A wide range of cartridges are available for both sizes of housing, the widely used cartridges are listed below, if you require a specialist cartridge call our technical helpline on 01507 608100.

IMPORTANT:

- Maximum operating pressure rating is 95psi, we recommend the fitting of a pressure regulator if feed pressure is expected to exceed 90psi.
- Ambient temperature operating range is 5°C to 40°C. Protect housing from cold, frost and excess heat.

CARTRIDGES

			MICRON RATINGS			
			1	5	20	50
10" CARTRIDGE	SEDIMENT	Poly Spun	SP01BB10	SP05BB10	SP20BB10	SP50BB10
